THE LIGHTNING ELIMINATORS™

WE PREVENT LOSS OF DATA, EQUIPMENT,
COMMUNICATIONS & FACILITIES

LEC has become the world leader in systems for Lightning Protection, Grounding, and Surge Protection, with thousands of systems installed worldwide — backed by application engineering, consulting, and training services. Our unique Dissipation Array System, surge suppressors and other lightning protection products provide the most effective lightning prevention available. To prevent loss of data, equipment and facilities, call us today!

Lincoln Industrial

"We have the experience, the people, the capabilities and the systems to save you money and increase your productivity."

Customer Service

We're the largest and most successful company in our field because we continually satisfy our customers with the world's best lubrication and pumping systems. For almost 90 years, companies have relied on our world-class manufacturing and customer service, and our vast network of distributors and support facilities.

Industrial Solutions

Professionals in operations and maintenance in every industry, from large processing plants to pulp and paper mills, and food and beverage facilities can benefit from Lincoln Industrial systems.

LINCOLN
INDUSTRIAL

1-800-435-9599

One Lincoln Way, St. Louis, MO 63120

Fax: 1-800-424-5359 • www.lincolnindustrial.com

Mobile Equipment

On the road or in the field, Lincoln Industrial protects heavy equipment used in mining, construction, agriculture and over-the-road trucking. The world's leading manufacturers offer our systems as standard equipment and factory options.

BearingSaver®

To make sure your investment results in significant savings, Lincoln Industrial developed a unique program called BearingSaver. You not only get a complete audit of lubrication practices at your facility, you also receive an analysis of your return for investing in new technology.

LION. KING OF THE CORDS.

Being on top means being the best...
in everything we do.

To achieve product perfection, Lion doesn't skimp on testing. 200% perfect is our minimum standard. When it comes to quality, if it's worth checking once, it's worth checking twice. That's why our power supply cords look good, feel good and work perfectly. In both our custom and standard lines, we invest plenty of time, money and energy in every step of the production process.

No surprises is our manufacturing philosophy. None for us and none for our customers. Meeting specs is one thing, exceeding them is obviously better...
that's the Lion's way.

For All X-Ray Applications...
Unlike less advanced technologies,
Lixi LowRad's range of applications
is virtually unlimited!
...and at the lowest cost imaginable.

The **Lixi LowRad** represents the first real advance in X-ray technology in over a hundred years. In fact, since Roentgen's initial discoveries, almost no new technologies have been developed...until now. Low apparent radiation, low power consumption, tube life measured in years...yet you get high-power images!

You owe it to yourself to investigate the newest ground-breaking idea in real-time, portable fluoroscopy: the **LowRad** from **Lixi**.

HVAC Rollforming Equipment

Vulcan 2900
for HVAC Ductwork Cutting

Building on its 50-plus years as the world leader in HVAC rollforming equipment, Lockformer has been developing new products for new markets - with truly dazzling results. These include: the TDC™ Transverse Duct Connector System for rollforming flanges on HVAC ducting. It is the most economical method of airtight duct connections in the industry. The family of Vulcan 2900, Vulcan II PCM and 3100D plasma cutting systems that provide the flexibility, and speed of a laser - at a fraction of the cost. And the highly cost-effective Excalibur glass cutting system that is growing in popularity in the window manufacturing market.

(Mfgs. Of The LOC-LINE®, The Original Adjustable Hose System. Hose Products Are Available In Four Inside Diameters: 1/4", 1/2", & 3/4" For Most Cooling Applications & 2 1/2" For Vacuum Applications. Products Include The Quick-Set Shield Kits, Modular Manifolds, Valves, & Many Nozzles & Fittings. Products Are All Modular To Be Assembled Into A Custom Configuration To Be Used As Coolant Hoses For Fluid Delivery, Air Delivery, Vacuum & Third Arm Applications Or Goosenecks)

(Ex.) (Pres.) Richard Holmboe; (Sls. Mgr.) Cynthia J. Lozeau

▲ SEE OUR CATALOG IN CATALOG FILE SECTION

(See adv. following column)

IF IT DOESN'T SAY LOC-LINE®, IT ISN'T!

Not every piece of modular hose is Loc-Line® not even if it's orange and blue. To know that you're buying the highest quality available, make sure the hose says Loc-Line® on it. The quality of your own work demands the proven reliability of the Loc-Line®.

Remember to ask for Loc-Line®, the original modular hose system for air, liquids, and vacuum. You can't afford to accept any substitutes.

For a Loc-Line® catalog and your local distributor's name call toll free: **800-423-1625**

LOOK FOR LOC-LINE!

(See adv. following column)

(LOMONT MOLDING INC.—Continued next column)

High Pressure, Custom Injection Molding

State of the Art Equipment

- Closed loop systems with capabilities to produce up to a 260 ounce part
- Robotics
- Conveyors and pneumatic systems
- Cooling systems that ensure quality for short and long runs

Lower Prices

- Multiple processes allow us to buy resins in larger quantities.

Quality Secondary Operations

- Sonic welding
- Insert molding
- Painting
- Part assembly
- Packaging
- EMI/RFI shielding

Engineering Services

- Advanced CAD/CAM and ProE Systems
- Part design or redesign
- Materials selection
- Prototyping
- Flow analysis

Around the Clock Production

- Lomont manufactures products 24 hours a day, 7 days a week.

In-house Tool Design

- Tooling and mold maintenance

Manufacturers

- Accumulators
- Thermocouples High Pressure
- Pressure Vessels
- Hydrostatic Pump Systems
- Gas & Air Booster Packages
- Hose Test Stands
- Hydrostatic Test Systems

Distributors

- Sample Bottles for Research
- High Pressure Fittings
- High Pressure Hoses
- Custom Valves and Manifolds
- Temperature and Pressure Digital Indicating Packages

To ensure the highest level of customer satisfaction, Lorimer achieves strict quality standards. All facets of Lorimer's business exceed today's standards in sales, production, on-time delivery, customer service and technical support.

LUBE DEVICES, INC.

Lubricating Equipment and Hydraulic Components

LUBE DEVICES is a world leader in the design and manufacturing of lubrication equipment—from components to complete systems. We also specialize in hydraulic components and reservoir accessories. Lube Devices' comprehensive product offering includes the **Hydra-Tool®** division which designs, manufactures and tests rotary manifolds for the mobile equipment industry and **Flodar® Fittings** specializing in custom engineered hydraulic fittings, check valves and filter fittings.

Let our Engineering Design Services provide you with the right product at the right price.
Send us your specs!

LUCAS INDUSTRIAL

Specializing In Power Transmission Products

Lucas Industrial is a leading supplier of high quality, cost-effective power transmission components.

- Shaft Collars
- Linear Bearings
- Mounted Bearings
- Leaf Chain
- Split Collars
- Linear Shafting
- Ball Bearings
- Roller Chain

Our commitment to personalized customer service and on-time delivery remains second to none.

Where WATERJET technology is a cut above.

The state-of-the-art answer to some of today's most difficult cutting problems is our new WATERJET Industrial Cutting System. At Luick, we are committed to maintaining the latest advancements in machining technology—under one roof—to provide the most complete source of product development for our customers.

Manufacturers of:

Fixtures
Gages
Specialty Tooling

Custom Assemblies
Special Machines

Machining Services Offered:

Prototype & Experimental Parts
CNC Milling
CNC Turning
CNC External Grinding
CNC Wire EDM's
CNC Inspection
Electrical Discharge Machining
Shape Cutting - Oxyacetylene and Shearing

Short-Run Production
Jig Boring
Sheet Metal Fabrication
Welding - Heliarc and Wire
WaterJet Machining

Company Profile

Lumberg is the recognized world leader in industrial and electronic connector technology. Our expertise lies primarily in the fields of sensors/actuators, network communications (fieldbus), white goods, and consumer electronics. These fields rely on a variety of Lumberg products such as: molded industrial watertight plugs and connectors; IDT connectors; network communication products; PCB terminal blocks; Circular DIN connectors and relay sockets.

Lumberg's highly reliable connectors are manufactured in several countries throughout the world, including the United States. This keeps Lumberg abreast of the latest manufacturing technologies and close attention to international and regional standards (i.e. CE, VDE, UL, CSA). Superb manufacturing and innovative designs have been and will be the key to Lumberg's evergrowing worldwide success.

Products Include:

- Molded Watertight Connectors
- "Mini", "Micro", and "Pico" series
- Passive Distribution Boxes
- Molded Valve (actuator) Connectors
- Control Buses Technology:
 - Intelligent Distribution Boxes
 - Network Physical Layer Components
- Strain relief cord grips
- Circular DIN connectors
- Snap-in DIN Connectors
- Mini-DIN Connectors
- IDT Connectors
 - board to board
 - cable to board
- PCB Terminal Blocks
- Relay Sockets

Why Lyon?

NATIONWIDE FULL SERVICE COMMITMENT

LIFETIME PRODUCT WARRANTIES

Recognizing that your satisfaction relies on product quality and performance, most Lyon products are warranted against defects in materials and workmanship for the life of the products, when used in accordance with the manufacturer's specifications and operating instructions.

FREIGHT ALLOWANCES

Freight costs are included on most orders shipping from a Lyon distribution center, via Lyon designated carriers. Lyon distribution centers are located coast to coast at Aurora, IL; Los Angeles, CA; Philadelphia, PA; Atlanta, GA; and Dallas, TX.

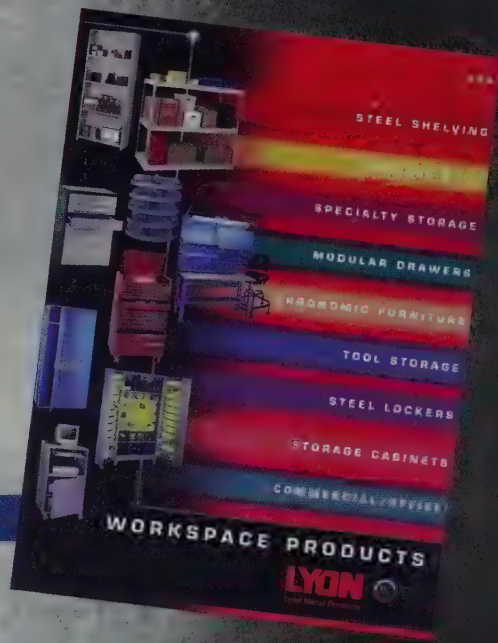

NO HASSLE CLAIM SERVICE

Any Lyon product damaged in shipment by a Lyon designated carrier will be returned. Lyon will ship replacement product free astray within two working days (for stock products) or ten working days.

NATIONWIDE DISTRIBUTOR NETWORK

Authorized Lyon distributors are located in every major market throughout the United States, bringing Lyon products and services close to you, day by day.

Five Distribution Centers,
100 Factory Representatives
Nationwide

(Specializing In Engineered Coatings, Including Thermal Spraying, Selective Plating, Plasma Spraying, Ceramics, Carbides & Super Alloys. Coatings For Wear Resistance, Corrosion Prevention, Cat Control, Managing Conductivity & Altering Surface Texture)
(Mkt. Mgr.) Sam Jundi

SEE OUR CATALOG IN CATALOG FILE SECTION

Our engineered coatings solutions add performance and function to our customer's surfaces.

MBI provides high technology quality coating services, mainly to extend the life of many components for various industries. Our coatings are not only used for buildup and repairs, but also for specific purposes or protection against a specific problem such as wear, corrosion, oxidation, etc.

20 years of experience, and our quality standards meeting various specifications, including MIL-SPECS, allow us to be confident in providing you with the best coating service for your application.

Thermal Spraying

Including Plasma Spray, Arc and Hotfume metallizing.

- Low heat, will not cause distortion.
- No minimum or maximum thickness
- Over 200 different materials available
- Grindable and/or machinable layering
- Reliable & repeatable coatings
- Wide range of industrial applications

Selective Plating

A precision "tankless" plating process for accurate surface buildup.

- Precision plating, tolerances within .0002"
- No hydrogen embrittlement normally associated with tank plating
- Superior bond strength, exceeds 12000 psi
- Variety of plating materials and alloys
- Can plate over any metal substrate

From stock models
to custom designs,
we create displays
which address your
unique merchandising
challenges.

We help you create
impact at the point
of sale with quality-
designed, easy-to-
use displays.

*Think of us as the dependable
industrial gas company
that's easy to do business with*

MESSER 
MG Industries

MG Industries, a leading industrial gas company operating in the U.S. and Canada, supplies industrial and process gases and the technology to use these gases effectively, serving customers through a network of strategically placed production and distribution sites. In addition to bulk gas liquid sales, we also build pipelines and on-site plants for our customers and sell specialized gases in cylinders and dewars. With 1998 sales in excess of \$360MM, we employ over 1,400 people in the United States and Canada and operate over 70 production plants and facilities.

MG Industries is a member of the Messer Group, a global leader in industrial gases, with more than \$1.8 billion in annual sales. With over 200 companies and over 14,700 employees, the Messer Group operates in more than 60 countries. Messer provides an extensive resource base from which MG Industries can draw at any time.

As a company, we are dedicated to providing excellent value for the dollars our customers spend. We strive to be a different kind of company, with a flat organization structure so we can make the decisions you need quickly and act on them in your interest with similar speed.

Some Quality Products We Offer...

- Oxygen
- Nitrogen
- Argon
- Carbon Dioxide
- Hydrogen
- Helium
- Rare and Specialty Gases
- Non Cryogenic Gas Separation Systems
- Advanced Gas Application Systems

Reliable Service...

- State-of-the-Art Production Plants
- Dependable Trouble Free Gas Storage Systems
- Professional, Reliable Transportation Systems
- Flexible Large Volume Pipeline Network
- Emergency Response Capability

Technologies Served Include...

- Material Processing
- Metal
- Chemical/Oxygen
- Food & Beverage
- Cryogenic Processing & Grinding
- Shielding Gases

EQUIPMENT COMPANY

MGW Equipment Company has been formed to service the needs of the tube fabricating industry. We sell new Lakeland Products and Parker "Extactol" - style rotary draw benders as well as flaring, beading and end-finishing machines.

MGW also carries Rigid #300 and #535 Threaders, Vise Benches and Chain Vises. We offer a complete bending bench package which includes the bench, an MGW personal bender, large vise and an Olsen flaring Machine.

In addition to new equipment, MGW repairs all types of benders and flaring equipment manufactured by Lakeland, Conrac, PHI, Eaton Leonard, Parker, Olsen and Pines. We have a service staff available to come to your facility, or you can ship equipment prepaid to MGW for a complete evaluation and estimate.

MGW also offers rebuilt benders and flaring machines that come with a full one-year warranty on parts and labor. These machines are in "like-new" condition and are priced at about half the cost of new equipment.

All MGW products mentioned above can be rented on a weekly basis or leased on a monthly contract.

BRANCH LOCATION IN WINDSOR ONTARIO CANADA

A COMPLETE MANUFACTURING SUPPORT COMPANY

Turnkey Manufacturing Solutions...

- ◆ CNC Machining
- ◆ Deephole Boring-Trepanning and Ejector Drilling
- ◆ Honing
- ◆ CNC Gundrilling
- ◆ EDM – Wire
- ◆ EDM – Plunge
- ◆ Electron Beam Welding
- ◆ Conventional Welding
- ◆ Investment Casting
- ◆ Electro-Mechanical Assembly
- ◆ Non-Destructive Testing
- ◆ Precision Grinding
- ◆ 3D Rapid Prototyping

INDUSTRIES SERVED:

- Aerospace
- Agriculture
- Arts
- Automotive
- Biomedical
- Chemical
- Computer
- Energy
- Fluid power
- Food & beverage
- General manufacturing
- Material handling
- Military
- Ordnance
- Pharmaceutical
- Process
- Refining
- Transportation
- Water treatment and others.

MK Products, Inc.

Serving Industry Since 1966

Asset Rating \$6 Million+

PUSH YOUR WELDING SKILLS TO THE LIMIT!

OUR CAPABILITIES

For over 25 years, durable, cost-effective welding equipment produced by MK Products have entered service in a wide variety of welding applications for many industries. Today, MK Products designs and builds the GMAW Cobra line of Push-Pull Welding Torches, Wire Feed Cabinets, Power Supplies and GTAW Orbital Tube and Pipe Welders that bring together every aspect of precision and dependability. Our customers include all major manufacturers in the Aerospace, Automotive, Biotechnology, Electronics, Food & Beverage, Furniture, Pharmaceutical, Ship & Barge building and Truck & Trailers manufacturing. Shouldn't your company be among them?

OUR MAJOR PRODUCTS

- Push-Pull Welding Torches
- Wire Feed Cabinets
- Power Supply/Wire Feed Systems
- Add-On Power Supply Pulser
- Orbital Welders & Controllers
- Orbital Weldheads
- Rotary Tables & Positioners
- Electronic Inverter Power Supplies

FACILITIES & SPECIAL CAPABILITIES

MK PRODUCTS, INC. are designers and builders of a wide range of welding products. We have a 78,000 square foot manufacturing facility. This plant and our wide range of late model machine tools and excellent fabrication shop provide us one of the most complete facilities available.

One of the most important assets that we offer is a dedicated and highly experienced design and engineering team. The hands-on field welding experience combined with technical expertise provide both excellent and highly cost effective new product development and continued product support for our existing customers. Our Corporate philosophy is simple: "Build the best quality products we know-how!" In addition, we stand firmly behind every welding system we build.

CORPORATE OFFICERS

Mike Kensrue	CEO	Paul Miller	Sr. Vice President
Doug Kensrue	President & COO	Lou Lantieri	Vice President, Marketing

MO-SCI CORP.

MO-SCI has the capability to take a glass from the conceptual stage to a finished product. Specialists in research, development and manufacturing of precision glass and glass related products, MO-SCI's experienced engineering staff creates glasses whose properties (mechanical strength, chemical durability, refractive index, fluorescent or radioactive, etc.) are optimized for specific applications. Glass is available in either bulk form or as microspheres (solid or hollow), fibers, powder, flakes or frit depending upon the customer's needs.

Major projects have included the development of glass microspheres and fibers for biomedical, electronic, optical and other industrial uses. MO-SCI's team of material technologists have conducted extensive research on biocompatible or biodegradable glasses and degradable glass fiber reinforced composites.

Industries Served Include...

- Semi-Conductor
- Coatings
- Research Labs
- Sporting Goods
- Communications
- Chemical
- Nuclear
- Medical
- Military
- Aerospace
- Transportation
- Electronic
- Instrumentation
- Optical
- Marine

PACKAGING SOLUTIONS

MPI LABEL SYSTEMS, with 7 locations throughout the U.S., is a leading supplier of tags, labels and labeling equipment for companies requiring solutions to labeling problems and product identification needs.

MPI's capabilities enable us to offer a wide range of solutions for product promotion and enhancement plus cost-effective management of variable packaging needs.

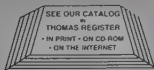

A 30 year old company, MPI has a long list of loyal customers and vendors who appreciate our total labeling capabilities.

We manufacture Prime labels, specialty constructions, thermal and bar code labels, all on film and paper materials.

For additional information on MPI Label Systems, contact corporate headquarters or visit MPI's web site at: <http://www.mpilabels.com>

MRC Bearing Services

Manufactures a complete line of standard ball bearings and specialty bearings

- The most comprehensive line of double row, single row angular contact and single row deep groove ball bearings for the petrochemical industry.
- The Marathon® Series of Composite Mounted Bearing Units for the food processing industry. These products provide the best price/performance combination for applications in the industry.
- Specialty bearing capability including new product design and made-to-order specials.
- Experienced Technical Services personnel to answer all of your bearing questions.
- 3000 standard product types available from stock.
- 100 years experience in the bearing industry.

400,000 items ready to ship!

MSC, the first name in Metalworking and Maintenance & Repair products, brings you the 1999-2000 "big book" to meet all your industrial supply needs. Wherever you do business, MSC's "big book" catalog is the source to trust.

With over 400,000 items from over 2000 suppliers, this edition features all the traditional tools and supplies you require, plus we've added almost 40,000 new items to keep you in touch with any application.

For cutting tools, abrasives, plumbing, electrical, HVAC, storage, hardware, raw materials, power transmission, fasteners, hose, tube & fittings, machinery, lubricants, pumps...whatever the purpose, whatever the function, MSC has what you need when you need it.

MTK ELECTRONICS, INC.

Noise suppression capacitors

MTK filtering the world for your protection

MTK Electronics, Inc. established in 1981 designs and manufactures a wide
range of radio frequency interference filters and feed-through filter capacitors for
the commercial and defense markets.

MTK owns a modern 8,000 square foot facility in excellent condition located in
Holbrook Long Island, New York. The company has close access to all major
modes of transportation.

Technical capabilities

MTK maintains inductor and capacitor manufacturing departments and a
computer aided design engineering department. MTK has over 2,000 designs on
file and most are to specific customer applications.

Quality system

MTK maintains a quality control system that conforms to MIL-I-45208. This
assures product performance consistent with the highest standards of reliability.
The company is currently pursuing ISO-9000 approval.

MTK philosophy

MTK's commitment to "State of the Art" development and manufacturing is
reflected in our firm belief that our customers are our partners in achieving
product excellence. MTK's expansion in virtually every area of radio interference
filters follows the steady growth demands of the industry.

MTS Systems Corporation

Mechanical testing solutions for

- ▶ **Quality control**
- ▶ **Product development**
- ▶ **Manufacturing process development**
- ▶ **Research**

MTS Systems Corporation offers an unequalled range of static and dynamic systems for easy, fast, efficient material testing. And our services and support are second to none.

- ▶ Reliable, affordable, high-quality test systems and accessories
- ▶ Unparalleled application expertise
- ▶ A global sales force of highly trained engineers
- ▶ Responsive service and HELPLINE telephone access
- ▶ State-of-the-art software and controls
- ▶ Flexible, LIMS-compatible data management

Solutions that start with you

We believe undeniable success can only be built from a heritage of pride. MW Industries' success started nearly 70 years ago from a single manufacturing plant to become the fastest growing manufacturer and distributor of a full range of industrial springs, fasteners and flat-stamped spring-related products in North America.

As we look towards a stronger tomorrow, we keep an eye on opportunity.

Not only do we look internally to developing existing member companies, we also place a special emphasis on new venture opportunities in the marketplace. The goal at MWI is to continue building an integrated family of technological leaders, and to continue to diversify our member companies' product lines, distribution methods, technology and staff. At MW Industries, we remain focused on our primary objectives; growth, dedication, technology, quality and strength.

INDUSTRIES INCORPORATED

Experienced, Stocking Distributor of
Teflon® Roll Covers & related products.

- Application specific assistance
- Expert advice on installation techniques
- On-site installation — ours or yours — available.
- Engineering support

- LARGE INVENTORY**
- Sizes from 1/2" to 12" diameter and up to 10' in stock.
- Larger diameters, longer lengths, and heavier walls available
- Various shrink ratios

TEFLON® & POLYOLEFIN Heat Shrink Tubing

- HEAT GUNS
- TFE/Glass Tape & Film
- Fluoropolymer Etchant

TFE Bearing Plates, Sheets, Cylinders, Bars, Rods
TFE Expansion Joints • Carbon Steel Dip Pipes lined and covered with TFE
FEP Flange and valve shields
Fluoropolymer Bags for High Purity Applications

maag pump systems

Your proven fluid handling solution
for complete systems in:

**Extrusion
Polymer
Industrial
Compounding**

gear pumps
filtration
heat exchangers
mixers
screen changers

MAGNET APPLICATIONS

**IF IT'S A MAGNET, WE DESIGN IT.
MAKE IT. AND ASSEMBLE IT.**

Featuring

- Expert Engineering
- All magnet materials
- Standard magnets
- Custom magnets
- Magnetic systems
- Brushless PM Motor and Controller Design

Total Magnet Solutions™

Magnet Applications, a unit of APW (listed on the New York Stock Exchange), is dedicated to bringing you Total Magnetic Solutions™. From design and engineering, stock magnets, to custom magnets and magnetic systems, we have the resources and facilities to bring your projects to fruition. Fast and competitively.

Special Materials

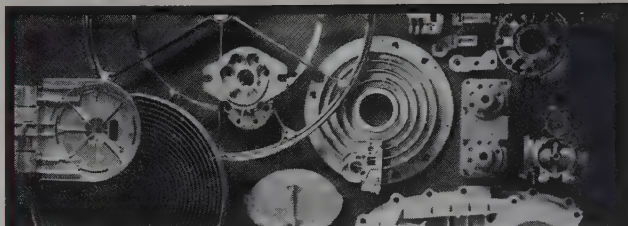

Our Bremag™ Neoplast™ and Ferriplast™ bonded and injection molded Neodymium and Ferrite magnets have won wide acclaim for superior performance characteristics. Magnetic properties can be tuned to suit your application.

Commitment to Quality

Our manufacturing plants in California, France and the United Kingdom are ISO 9000 certified. Additional plants under construction are targeted for QS 9000 certification.

Call us for immediate assistance — for small or large quantities, for local or global support.

MAGNESIUM ALUMINUM CORPORATION

We are an award-winning manufacturer of precision magnesium and aluminum alloy die castings operating in Cleveland, Ohio.

QUALITY POLICY

Magnesium Aluminum Corporation is dedicated to delivering defect-free products that exceed customer expectations while providing the highest possible level of support, service and satisfaction.

WE PROVIDE

- Innovative Product & Tooling Design
- Advance Quality Planning & Control Systems
- Efficient Plant Management
- Leading Edge Process Control Technology & Manufacturing Engineering
- Superior Maintenance Programs
- Responsive Production & Inventory Management

IF IT'S A **MAGNET**, WE DESIGN IT. MAKE IT. AND ASSEMBLE IT.

1955

Serving industry for over 50 years with systematic quality, expert engineering, standard magnets, custom magnets, and high level magnetic assemblies. Whether its providing technical support for high-tech applications or recommendation sensible magnets for down-to-earth ones. Count on us for continuing and reliable service.

MAGNET DESIGN ASSISTANCE

From selection of appropriate material to sophisticated computer aided finite element analysis, our team of specialized engineers has the background and experience to help you from concept to product.

IN EVERY KIND OF MATERIAL & GRADE

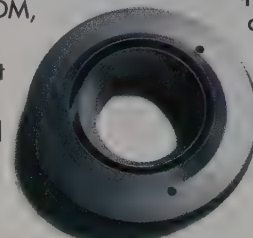

From Samarium Cobalts and Neodymium Iron Borons, to Bonded Rare Earths, Alnicos, Ceramics, and Flexibles. In a range of grades that span the breadth of modern magnet materials. High Br, Hc or BHmax materials to suit your application.

AND EVERY SHAPE & SIZE

Rods, bars, rings, cylinders, discs, arcs, horse-shoes and more. If it's not one of our six million magnets in stock, we'll make it - fast and at a competitive price.

CUSTOM MACHINING & ASSEMBLY

Complete in-house machining gives greater control and reliability for your product. Surface, I.D., and O.D. grinding, wire EDM, and production slicing equipment for magnet fabrication. And CNC capabilities to manufacture metal components of finished magnet sub-assemblies. Topped off by high energy magnetizers, testings and documentation. From prototype to production.

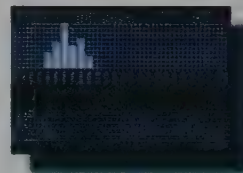

OVER 6 MILLION MAGNETS IN STOCK. COAST TO COAST.

Stock magnets are shipped within 24 hours from one of the largest inventories of permanent magnets available. From stocking locations on both coasts.

ISO 9000 CERTIFIED

Our plants in California, and affiliates in the United Kingdom, and France are all ISO 9000 certified. And that's an indication of our commitment to provide quality products and services to our customers - systematically.

From design to prototype and production we provide TOTAL MAGNETIC SOLUTIONS on the solid foundation of systematic quality.

CUSTOM TRANSFORMERS & Magnetic Components

Audio • Pulse • Toroids • Power Supplies
Hi-Current • Three Phase • Ferroresonant

EXPERIENCED ENGINEERING

- Custom Engineered To Your Specifications
- CAD Produced Production Files (Repeatability)
- Prototype To High Volume Production

HIGH QUALITY & RELIABILITY

- Complete Statistical Process Control (SPC)
- Total Quality Management (TQM)
- Just-In-Time Delivery System (JIT)
- Electronic Data Interchange (EDI)
- ISO 9001 Certification Pending

MILITARY & UL CERTIFICATION

- MIL-I-45208 and MIL-Q-9858
- NASA 981 and MIL-STD-2000 Soldering Certified
- UL, CSA, VDE, TUV, IEC, & CEE Approved

MAGNETIZER®

The Natural Way To Condition Water & Fuel

- MOST POWERFUL • INEXPENSIVE •
- EASILY INSTALLED •

SAVE MONEY ON WATER CONDITIONING

- Reduce or eliminate hard water scale in pipes and all water cooling and processing equipment
- Reduce or eliminate costly detrimental chemical
- Reduce maintenance expense

SAVE MONEY ON FUEL CONDITIONING

- Reduce emissions to comply with EPA Clean Air Act
- Increase combustion efficiency of all Hydrocarbon fuels... for autos, trucks, boilers and furnaces
- Substantially reduce exhaust pipe and smoke stack emissions.

INCREASE PROFITS IN AGRICULTURE

- Promote greater crop yields while reducing water and energy costs.

MAGNUS®

A CLEANING SYSTEM FOR EVERY APPLICATION

For over fifty years, the Magnus name
has been synonymous with lasting quality.

Semi Automated Wash, Rinse, Rust
Protect, Dry Cleaner System

As a world leader in the design, manufacture, distribution, and
support of cleaning and drying systems for industrial metals, we offer one of the widest
selections of standard cleaning equipment in the world — and the engineering expertise
to design the system of your choice.

Our systems are designed to accommodate automated or semi-automated processes,
including filtration, chip and oil removal, chemical control, and waste minimization.

For a FREE evaluation call 1-800-456-6423

 Rexroth

Drive CONTROL

◆ **Rexroth Hydraulics Division, Industrial**

2315 City Line Road, Bethlehem, PA 18017-2131

▼ Tel: (610) 694-8300 • Fax: (610) 694-8467

The world's leading manufacturer of hydraulic components, systems, and allied electronics. Our design, manufacturing and service capabilities are backed-up with a network of Mannesmann Rexroth-trained distributors—experts who have learned their hydraulics at Mannesmann Rexroth-operated schools, and who bring their very special skills to your area. This combination of unsurpassed engineering, manufacturing and service has led to the universal acceptance of Mannesmann Rexroth products in the highly demanding and severe applications of industrial production.

Rexroth Hydraulics Division, Mobile

1700 Old Mansfield Road, Wooster, OH 44691-0394

Tel: (330) 263-3300 • Fax: (330) 263-3333

Specializes in hydraulic products and hydrostatic transmissions for agricultural, construction, forestry, material handling and municipal equipment. Our division combines a long heritage of quality and service with truly innovative design and engineering. Most important is Mannesmann Rexroth's international service and supply capabilities, insuring that your equipment is never far from Mannesmann Rexroth's attention.

Rexroth Mecman Division

1953 Mercer Road, Lexington, KY 40511-1021

Tel: (606) 254-8031 • Fax: (606) 281-3483

Serves the world's industrial, mobile/construction, oilfield, and marine markets. Formerly WABCO Fluid Power, our division's long history of quality products include industrial pneumatic and hydraulic cylinders, and pneumatic and electro-pneumatic valves, actuators and control systems. Our diverse product/market background has developed a depth of pneumatic component know-how that combines the rugged, durable mobile/oilfield product characteristics with the attributes of large volume/low cost manufacture and high cycle life required in the industrial machinery and equipment market.

Indramat Division

5150 Prairie Stone Parkway, Hoffman Estates, IL 60192

Tel: (847) 645-3600 • Fax: (847) 645-6201

Designs, develops and manufactures precision motion controls for the automation of industrial manufacturing. The company's product line includes brushless AC servo and AC vector drives and intelligent micro-processor based controls for a myriad of industries. Along with Indramat's extensive applications expertise, this technically superior product line has built Indramat's reputation as the company that develops solutions to manufacturing control challenges.

Star Linear Systems

14001 South Lakes Drive, Charlotte, NC 28273-5544

Tel: (704) 583-4338 • Fax: (704) 583-0523

Star Linear Systems is the U.S. affiliate of Deutsche Star, a world leader in linear motion technology. The company's product line includes the complete Star product range of linear ball bearings, ball screws, positioning tables, automation modules and Tychoway Linear Roller Bearings. Integrating this extensive component offering, with in-house engineering and motion control expertise, enables Star to offer complete positioning systems as well. This capability has built Star Linear Systems' reputation as a company with complete solutions for linear motion applications.

Brueninghaus Hydromatik, North America

8 Southchase Court, Fountain Inn, SC 29644-9018

Tel: (864) 967-2777 • Fax: (864) 967-8900

Brueninghaus Hydromatik, North America is an affiliate of Brueninghaus Hydromatik GmbH and is a division of Mannesmann Rexroth USA. Brueninghaus Hydromatik is the world leader in the design and manufacture of Hydraulic Axial Piston Pumps and Motors. For more than four decades we have been on the leading edge of hydrostatic drive technology and our product & system innovations can be found in a vast array of applications in both mobile and industrial machinery.

Lohmann + Stolterfoht

551 Telser Road, Lake Zurich, IL 60047

Tel: (847) 550-9800 • Fax: (847) 550-6300

The Lohmann + Stolterfoht division supplies and services planetary gear drives for mobile equipment and industrial applications with sizes ranging from 3 to 2100 kNm output torque and gear ratios from 25 to 2000. The L+S planetaries are available with integral brakes and hydraulic motors. Their compactness and high power density is successfully utilized in a multitude of functions.

Battery Charging Systems & Technology for the 21st Century

ACTivator 3D A New Concept in Battery Chargers

Patented Technology

- Uses ACTivator 3D, a proprietary, three dimensional charging technology that rapid charges batteries with very little heat rise
- Fully charges batteries 5 to 10 times faster than conventional chargers
- Uses available power sources (auxiliary generators, alternators, or shore power)
- Battery life is extended up to 5 times longer using this technology

Modular Construction

- Enables battery banks to be charged independently
- Add up to 4 additional power modules in parallel to achieve charging currents of 20 to 100 amps
- Modules can be interconnected in series or parallel to achieve higher voltage or current as needed

Remote Monitoring

- Remote Battery Monitor panel provides complete battery information
- Monitors battery voltage, charging current, and capacity (%) for each battery bank

Environmentally Protected

- Totally enclosed, protected from the rough marine environment
- No louvers or cooling fans to draw in moist air which can damage conventional chargers
- Efficient, low heat dissipating system

● **Rapid Charges Batteries**
● **Extends Battery Life**
● **Eliminates Conventional Charging Problems**
● **Achieves Consistent Performance**

If you...

- Manufacture Batteries
- Use a Battery in Your Product, or
- Need a Custom Charger Design

Call Marinetics today to learn how advanced technology and engineering can improve your efficiency and save you money!

MARK-10

The measurable difference in force & torque measurement

Mark-10 Corporation has been an innovator in the force and torque measurement fields since 1979. Since then, our products have proven themselves in many diverse applications:

- Peel force measurement
- Crimp pull testing
- Frictional force measurement
- Package seal strength testing
- Switch contact activation force measurement
- Suture strength testing
- Needle/blade sharpness testing
- Spring testing
- Torque tool calibration
- Fastener testing
- Weighing
- Physiological studies
- Bottle cap torque testing
- Connector insertion/withdrawal force measurement

With over 50 years of continued growth and development, TPI Corporation, parent company of Markel Products, is the largest manufacturer of electric space heating equipment in the country, and a leading manufacturer of air ventilation products.

Operating Division Location

Three Plant locations in two states totaling over a million square feet of manufacturing and warehousing space.

- **TPI Corporate Headquarters**, located in Gray, Tennessee, with 500,000 square feet dedicated to the manufacturing of electrical heating and ventilation equipment for industrial, commercial, and residential markets.
- **Columbus Electric Manufacturing Company**, Gray, Tennessee, is a wholly owned subsidiary of TPI Corporation, Columbus Electric is a manufacturer of Heating and Air Conditioning Controls for the H.V.A.C. industry, including distributors, wholesalers, OEM's and retail/hardware stores.
- **Fostoria Industries**, Fostoria, Ohio, is a wholly-owned subsidiary of TPI Corporation. We have pioneered electric infrared technology and development for processing, people heating, and snow/ice control. Fostoria is operated from two plant locations in Fostoria and Findley, Ohio

Business Segments & Product Offering

- Process heating and specialty lighting equipment for commercial and industrial applications including automotive, textile, and medical industries.
- Highly engineered and specialized space heating equipment for residential, commercial, and industrial use including Hazardous Location Unit Heaters for chemical, petrochemical, grain, and mining industry applications.
- Sophisticated Switches and Controls used in a variety of applications, as in the high-tech and aeronautical industries, sold worldwide.
- If you have applications you can't find products for, we have the capability to design and engineer to your specifications.

Markel products are sold worldwide through various channels including distributors, wholesalers and other outlets for customers ranging from the industrial engineer and professional contractor serving commercial and industrial markets.

The Best Air Curtains On Earth Come From Mars.®

Mars® Air Door has been the most widely recognized manufacturer of quality, American-made air curtains since 1962.

We continually strive to develop state-of-the-art air curtains designed to reduce building heating and cooling costs while protecting clean inside air from dust, fumes, insects and other pollutants. Our engineers and product designers provide innovative solutions to the most challenging door or window application...even DC model air curtains for refrigerated trucks! Whether it's a small pass-through window or a large loading dock door, see how our products can protect any size building opening.

Mars...we're closer than you think.

formerly GE Environmental Systems

Marsulex, Inc. is very pleased to announce that it has acquired substantially all the assets of GE Environmental Systems (GEESI) from the GE Company. GEESI was formed in 1981 when GE acquired Chemico Air Pollution Control Company and Buell Emission Control Company, which had been in the air pollution control business since 1947 and 1934 respectively. The new company, Marsulex Environmental Technologies, (MET) headquartered in Lebanon PA, USA will continue to offer complete design and servicing capabilities for air pollution control systems.

MET's products include wet and dry flue gas desulfurization, dry acid gas scrubbing systems for solid waste incineration including activated coke/carbon technology for air toxics reduction, fabric filters, electrostatic precipitators, Buell cyclones and mechanical classifying equipment.

For information on any of these technologies, call today or visit our web site at www.met.marsulex.com.

Matrix Service Company

MATRIX TANK EXPERIENCE INCLUDES
the following tank types which can be constructed to
API 650, 620, ASME or AWWA specification:

- Cone Roof Tanks
- Open Top - Floating Roof Tanks
- Internal Floating Roof Tanks
- Dome Roof Tanks
- Umbrella Roof Tanks
- Knuckle Roof Tanks
- Stand Pipes
- Reservoirs
- Cone Bottom Tanks
- Sloped/Dished Bottom Tanks
- Refrigerated/Cryogenic Tanks
- Low Temperature Tanks
- LOX, LIN Tanks
- Thermal Energy Storage
- Repair and Maintenance

*"The Conveyor Name Known
For Quality Around the World"*

Mayfran International is the leading designer and manufacturer of conveyor and processing systems for metalworking and recycling applications. The Mayfran name stands for "excellence" since 1933.

Mayfran designs, engineers and manufactures conveyors and recycling equipment including:

- Chip and coolant separation/processing equipment for machine tools and integrated manufacturing
- Coolant filtration/pumping systems
- Large conveyors and transport systems for metal stamping scrap
- Conveyors and sorting systems for recycling
- Heavy-duty conveyors for ash handling, steel mill, C&D and scrap yard applications

Mayfran International

Aerial Work Platforms

Innovators Of The Aerial Lift Industry

Mayville Engineering Company introduced the first aerial work platforms with the Power Lift® Elevating System™ for improved performance and reduced maintenance.

MEC lifts were first with Balanced Energy Systems™ that deliver up to 16 hours of operation on a single charge. And, MEC was the first manufacturer to include Pot Hole Protection™ for increased operator safety.

Since 1975, quality, innovation, performance and safety have made MEC a leading manufacturer of Aerial Work Platforms.

- Working heights to 47 ft.
- Lift capacities to 1,750 lbs.
- Drivable at full height
- Automatic Pot Hole Protection™ on narrow units
- ANSI and CSA compliant

E. McGrath Inc.

THE BEST IN GOOD USED AND
RECONDITIONED EQUIPMENT SINCE 1953

THE COMPANY – Since 1953, E. McGrath, Inc. has been providing manufacturing and high tech test equipment to R&D companies, universities, start-up companies as well as established corporations. **All equipment is owned by us and stored for quick access at our two local facilities that total 30,000 sq. ft. storage capacity.**

THE PRODUCTS – E. McGrath, Inc. specializes in high vacuum, optical, environmental and semiconductor processing equipment. The ability to recondition equipment from our stock allows our customers to take advantage of prompt delivery, tremendous savings and excellent value.

THE COMMITMENT – E. McGrath, Inc. is dedicated to thorough customer need evaluation and quick customer service. Our small, experienced staff works closely with our customers to ensure that all orders are processed promptly. Equipment is reconditioned and tested and the customer is provided with a close estimate of delivery.

Grinding Mill Liner
Automatic Fuel System
Cranes & Service Trucks
Mining Equipment
Flexible Conduit

McLellan Industries (originally McLellan Equipment) was con-
ceived as a small water truck manufacturer and evolved into lube
trucks and mining equipment manufacturing. To keep up with the
high quality levels needed to meet the extreme conditions these
products have to endure, McLellan Industries found itself design-
ing and manufacturing most of our own components. This multi-
line capacity, with special attention to quality and performance,
has given McLellan Industries high vendor performance ratings
from our many customers.

MechanEquip®

Since 1956, MechanEquip® has been designing and manufacturing coalescers to remove extremely fine mist particles from pressurized gas systems for the most critical applications for compressor installations, compressor manufacturers and packagers of compressor systems for gas, air, refrigeration and gas filter/separators.

For over four decades MechanEquip® has made many significant contributions and technological advances in the field of coalescence and separation to the energy industries. MechanEquip®'s reputation for improving and solving existing installations, with oil carry over problems, is widely known and respected in industry.

Compare and see the MechanEquip® difference.
MechanEquip®: coalescing and separation technology for the 21st century.

MEISSNER
FILTRATION PRODUCTS, INC.

Since 1957 designers and manufacturers of
High Quality Filter Cartridges • Filter Devices
Industrial Filter Housings • Sanitary Filter Housings

INDUSTRIES INCLUDE:

- Microelectronics
- Chemical Processing
- Oil and Gas
- Metal Finishing
- Food and Beverages
- Coatings
- Cosmetics
- Biologicals/Diagnostics
- Pharmaceuticals/Biotech

TECHNICAL ASSISTANCE

Complete Laboratory Services • Full Support Operations
Filtration Analysis & Validation • Application Development

Photonics is transforming the world we live in
It is our commitment to provide photonics tools
that bring your ideas to light.

the Practical Application of Light

Melles Griot has supplied products that enable the practical application of light for 30 years, becoming a worldwide manufacturer and distributor of optics, lasers, opto-mechanical hardware, and instruments.

Pioneering the field of catalog sales with our industry-leading Optics Guides, today the Photonics Components division is a major OEM supplier of standard and custom optical components and advanced thin-film coatings, as well as optical tables, opto-mechanical hardware, and flexure-based nanopositioning systems.

Melles Griot Optical Systems specializes in the design and manufacture of multi-element optical systems for demanding OEM applications including semiconductor, machine vision, and reprographics.

A leader in laser technology for commercial and research applications, Laser division has expanded from multi-colored helium neon lasers into helium cadmium, air-cooled ion, semiconductor, solid-state, and frequency-stabilized lasers. Subassemblies, turnkey, and fiber optic beam delivery systems enhance these capabilities.

Complementing these capabilities, our line of laser measurement instrumentation includes power and energy meters, photodetector amplifiers, and laser beam profilers.

Working with industry, supporting research and development, partnering in OEM production — Melles Griot continues to lead the photonics industry.

We furnish the products that enable the practical application of light.

Photonics

is emerging as an important technology for the future. Melles Griot supplies the elements used to **create, transform, and detect** light for applications as diverse as biotechnology, telecommunications, entertainment, and reprographics.
